
***Where does pay for
performance fit in healthcare
reform?***

Nancy Park
PwC Healthcare

Three major forces are driving change in the healthcare sector...

Revolution
in care

Impact of
new
science

Regulatory
reform

Regulatory reform is emerging as all populations demand quality healthcare at a reasonable and sustainable cost

- Developed economies
 - Dealing with aging populations and rapid rise of chronic illness
 - Cost and quality
 - Sustainability and value
- Developing economies
 - Rising middle class
 - Diseases of prosperity
 - Looking for leading edge solutions and lessons learnt

- 
- Reimbursement reform
 - Pay for performance
 - Mandates for reduced errors, improved quality, better outcomes

UK case study: “Quality, Innovation, Productivity and Prevention”

Clinical (Commissioning)

- Long term conditions
- Urgent and emergency care
- Right care
- Safe care
- End of Life care
- Medicines use and procurement

Non-clinical (Provider)

- Productive care
- Procurement
- Back office efficiency
- Pathology rationalisation
- Commissioning contracting

System enablers

- Technology and digital vision
- Policy levers
