

# Enhancement Program on Prevention of Patient Fall

Department of Surgery  
Queen Elizabeth Hospital

Ng Suk Ching, APN

16 May 2013

# Key Objectives

- 1) ↑ Both nursing and supporting staffs alertness on the prevention of Patient Fall
- 2) ↑ Both patients and relatives awareness regarding the risk of fall by engaging them in the program
- 3) ↓ Patient Fall Incident Rate

# Methodology

Workgroup on prevention of patient fall

Periodic Review & Evaluation

Post Fall Assessment

## Prevention of Patient Fall

Information Leaflet

Monthly Fall Calendar

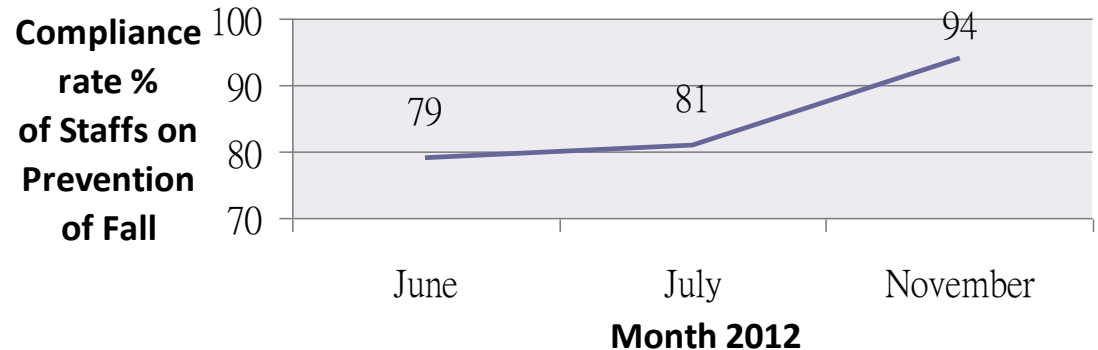

Hourly Patrol Record

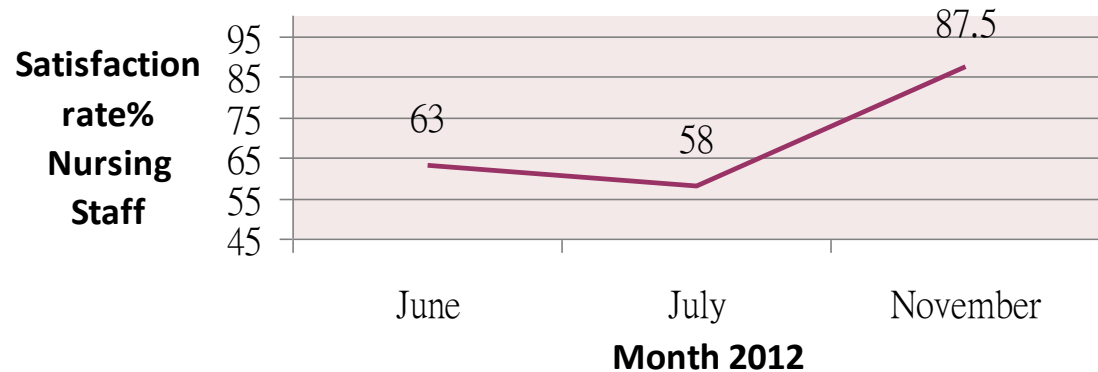

Fall Assessment

# Results

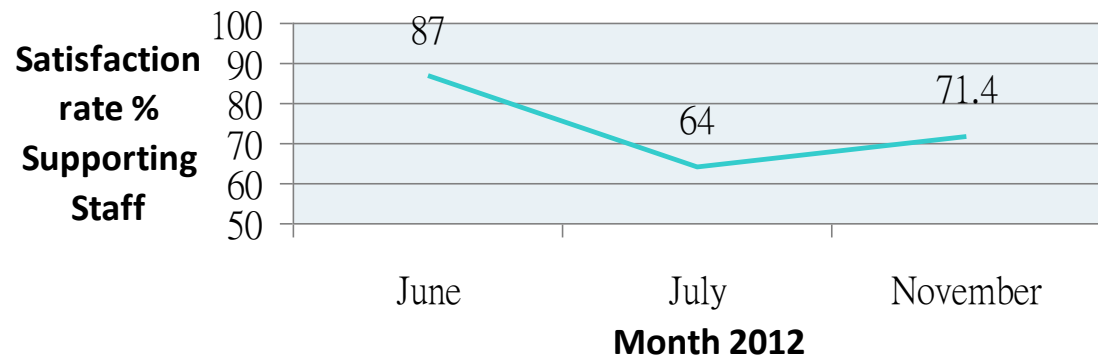

1. ↑ Compliance Rate of the staffs on Prevention of Fall

2. ↑ Satisfaction of Nurses on the Enhancement Program

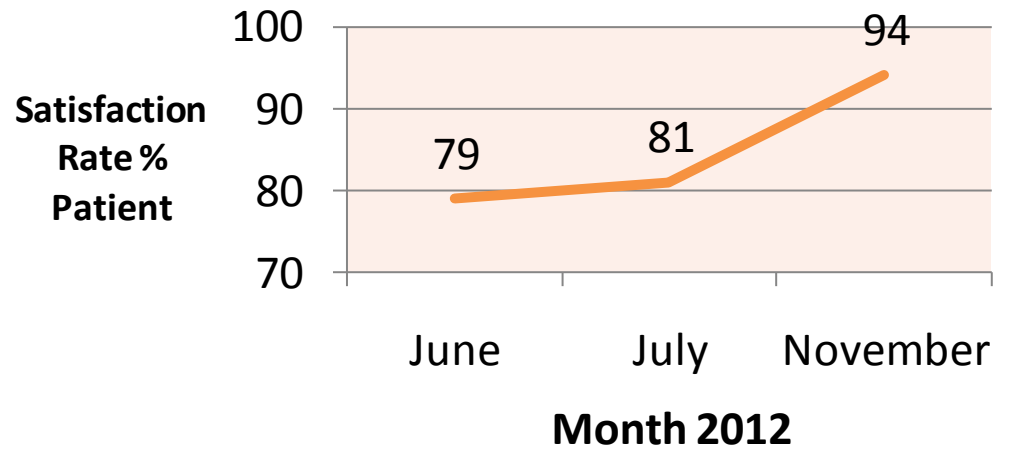

3. ↓ Satisfaction of Supporting staff on the Enhancement Program

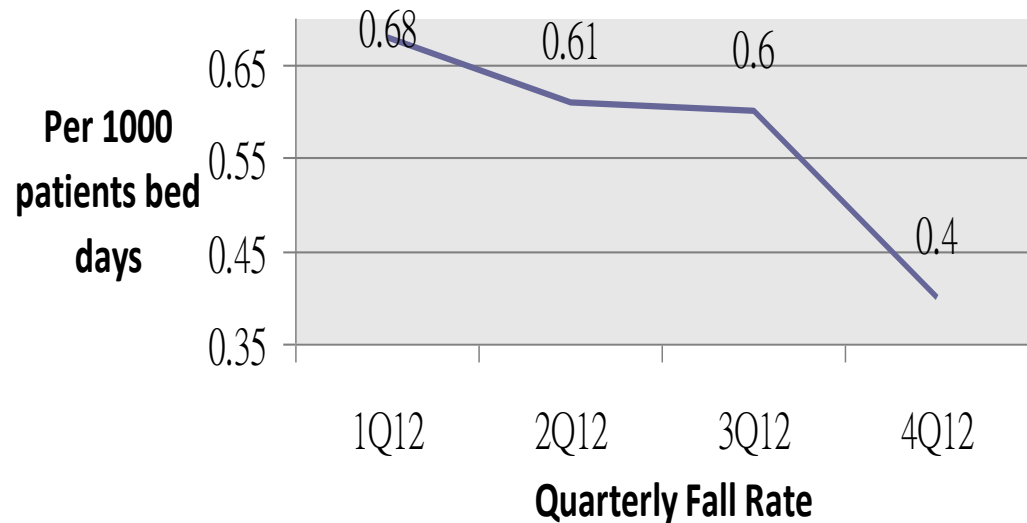

# Results

## 4. ↑ Patient Satisfaction on the Enhancement Program

## 5. ↓ Overall Department Quarterly Fall Rate in 2012

# Conclusion

- The Enhancement Program demonstrates significant and excellent outcomes on the prevention of Patient Fall.
- Without staff commitment, and engagement of patients and relatives, the program could not be successfully implemented.
