### Staff and Patient Engagement from the Eyes of Patients

*Leung KP*

*Internal Affairs Committee, The Hong Kong Alliance of Patients' Organisations, Hong Kong*

---

As a professional teacher and an educated patient, the speaker will share with the audience his experience in enhancing teacher-student engagement by motivating student to participate actively in their studies. He will try to apply this experience to staff-patient engagement in the medical profession by utilising various levels of the three domains, namely Cognitive, Affective and Psycho-motor, of Bloom's Taxonomy to the whole treatment process from initial consultation, examination, medication, operation, to rehabilitation with empathy.
