C2.1**Rehabilitation and Community Care****13:15 Room 428****Ortho-geriatric Care for Elderly with Hip Fractures***Yam CP**Department of Medicine and Rehabilitation, Tung Wah Eastern Hospital, Hong Kong*

The Geriatric Teams of the Queen's Medical Center of Nottingham University and the Poole Hospital achieved excellent outcomes in their Ortho-geriatric services. The clinical attachment was a precious opportunity to learn about the management of elderly orthopaedic patients with fragility fractures and organisation of ortho-geriatric service.
