

Do you want to support our patient service?

Charity Sale

Prince of Wales Hospital 25th Anniversary Album 'ACCESS'

ACCESS

威爾斯親王醫院 PRINCE OF WALES HOSPITAL

Charity Sale of the Prince of Wales Hospital 25th Anniversary Album Access

Since its opening in 1984, the Prince of Wales Hospital has been providing the community with comprehensive quality healthcare, living up to her motto "We care, We Serve." To commemorate the hospital's 25th Anniversary, the hospital is putting up the anniversary commemorative album Access for sale and all proceeds will go to support the Prince of Wales Hospital Charitable Foundation.

■ The Prince of Wales Hospital Charitable Foundation

The Prince of Wales Hospital Charitable Foundation was set up in 2007 to raise funds to support patient services and enhance patient care, particularly the service gaps that public resources cannot subsidize. Service areas which have received support include community rehabilitation, care of the chronically-ill and health promotion in the community.

■ The 25th Anniversary Album Access

You will enjoy reading our anniversary album. It records our important milestones and challenges over a quarter of a century. And it also records the trials and tribulations and caring stories of our patients and staff. It is a memento you will treasure.

■ Your Support

Access is now on sale in the Hospital Main Shroff and Rehab Shop at HK\$250 for a softcover copy and HK\$500 for a hardcover copy. You can also order the book and contribute to the meaningful cause by filling in the attached order/donation form.

We ask for your generosity to bring hope to patients in need!

You Can Be a Great Help to Us in Our Fight Against Chronic Diseases!

My name is Fong Wai Ying. I have had diabetes for years.

In 2009, my condition deteriorated and I was admitted to the hospital. On being discharged, I was given a health kit funded by the Prince of Wales Hospital Charitable Foundation. In the kit are a digital blood pressure monitor, a blood glucose metre and a log book. They have been very useful in helping me to monitor my blood pressure and glucose levels at home.

This gift has taken away the constant worry from my family on how to keep track of my condition and avoid potential severe complications. As the equipment is free, it has also helped to relieve our financial burden.

I am extremely grateful to the donors and do ask for your generosity in helping many more people like me.

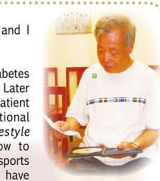

I am Kwan Sheung Ming. I retired in 1995 and I had been enjoying relative good health.

But in 2007, I was diagnosed as having diabetes mellitus. My condition was unstable at first. Later I joined the hospital's diabetes mellitus patient self-help group and received this educational VCD *Caring For Yourself - Healthy Lifestyle for Diabetes Mellitus Patients*. I learnt how to monitor my glucose level, eat properly, do sports regularly and use the insulin injection pen. I have been keeping a good regime for the past three years and now I do not need to take diabetes drugs any more.

I feel empowered when I can practise what I have learnt. Information can be very powerful in a positive way! Now I am a leader of the self-help group and try to inspire fellow patients that they can lead a quality life if they follow a healthy lifestyle.

I wish to thank the Prince of Wales Hospital Charitable Foundation and urge donors to help many more like me.
