

(Department of Medicine)

To All staff and Dr William Chan

I just wanted my thanks and appreciation for the wonderful care you all showed to my grandma.  
(F5/)

You all demonstrated your commitment into caring patient. Your loving care and patience are the most important things we need. In the past few days you also gave support to my family and provide help when needed.

I would like to particularly thank Dr. William Chan for his help. Despite his workload he is willing to give-up some of his precious time explaining my grandma's situation and gave valuable advices.

Thank you all once again for all your care and support.

Best regards.
