Physiotherapy Department

Dear Ms. Katherine YUEN,

I was one of your patients in past few months and I would like to extend to you with my deepest appreciation for your rehabilitation care and physiotherapy treatment to me. I have been suffering for months from marked back pain and left wrist pain after an injury with prolapsed lumbar disc and tear of a triangular fibrocartilage complex. After a period of treatment and under your care, I am so glad that I am feeling better now.

I am writing this letter as a humble note of appreciation for the quality physiotherapy service provided by you in these days. I must say the sincere and prompt support extended by you was much appreciable. As a new generation of physiotherapist, please keep up your good work.

Once again thank you very much for your sincere attitude and excellent service. I wish you a lot of success in coming future.

Sincerely,
