Works by Siu Kuen

Subsequent to the 2008 joint exhibition 'Art to Heart: Works by Castle Peak Hospital Patients', Castle Peak Hospital joins hands with Sino Group's 'Art in Hong Kong' to present 'Wordless Expressions - Works by Siu Kuen'.

Growing up with a speech impediment, Siu Kuen turned to painting as a nonverbal mode of expression that allowed her to make her imagination a reality. Her artistic skills and creativity helped form her identity as people recognised her talent and appreciated her work. This exhibition features 34 pieces of her artworks vividly composed of colours and lines that bring audiences into Siu Kuen's world of imagination.
