

Clusters, Hospitals & Institutions	Kelompok, Rumah Sakit & Lembaga Kesehatan
The Hospital Authority currently manages 43 public hospitals and institutions, 49 Specialist Out-patient Clinics and 74 General Out-patient Clinics. These are organised into seven hospital clusters based on locations. Hospital clusters ensure that patients receive a continuum of high quality care within the same geographical setting and throughout their episode of illness – from acute phase through convalescence, rehabilitation, and community after-care. This is achieved by rationalising operations of the hospitals within each cluster, so that a comprehensive and complementary range of services can be delivered to the community.	Otoritas Rumah Sakit saat ini mengelola 43 rumah sakit dan lembaga kesehatan umum, 49 Klinik Rawat Jalan Spesialis, dan 74 Klinik Rawat Jalan Umum. Semuanya diatur dan dikelompokkan menjadi tujuh kelompok rumah sakit berdasarkan lokasinya. Kelompok rumah sakit memastikan bahwa pasien menerima serangkaian tindakan perawatan kesehatan berkualitas tinggi, dalam lingkup geografis yang sama dan dalam seluruh riwayat penyakit mereka – dari fase penyakit akut hingga pemulihan, rehabilitasi, dan perawatan kesehatan oleh masyarakat. Hal ini dicapai dengan merasionalisasi pengoperasian rumah sakit di setiap kelompok rumah sakit, sehingga berbagai macam lingkup layanan kesehatan yang komprehensif dan saling melengkapi bisa diberikan kepada masyarakat.
