

# Turning the World Upside Down

*The search for Global Health in the 21st Century*

*Hong Kong Health Authority Convention*

*2011*

*7<sup>th</sup> June 2011*

**Nigel Crisp**

# *The Global context*

- Interdependence
- The unfair health trade
- Shifts in power
- Sourcing innovation
- Co-development

# ***20<sup>th</sup> Century successes***

## **The 20<sup>th</sup> Century paradigm**

- **Greater professionalism**
- **Scientific discovery**
- **Commercial development**
- **Growing funding**

# ***21<sup>st</sup> Century disruptions***

Life has changed

- Diseases and conditions
- Patients and the public
- Science and technology
- Health becomes global

This model is now  
part of the  
problem

# *New ideas from elsewhere*

- Pioneers
- Other industries
- Young people
- Disability and rights groups
- Low and middle income countries

# ***Low and middle income countries***

- Poverty, social issues and internal and external power relationships
- Shortages of resources and health workers
- Non-communicable as well as communicable diseases

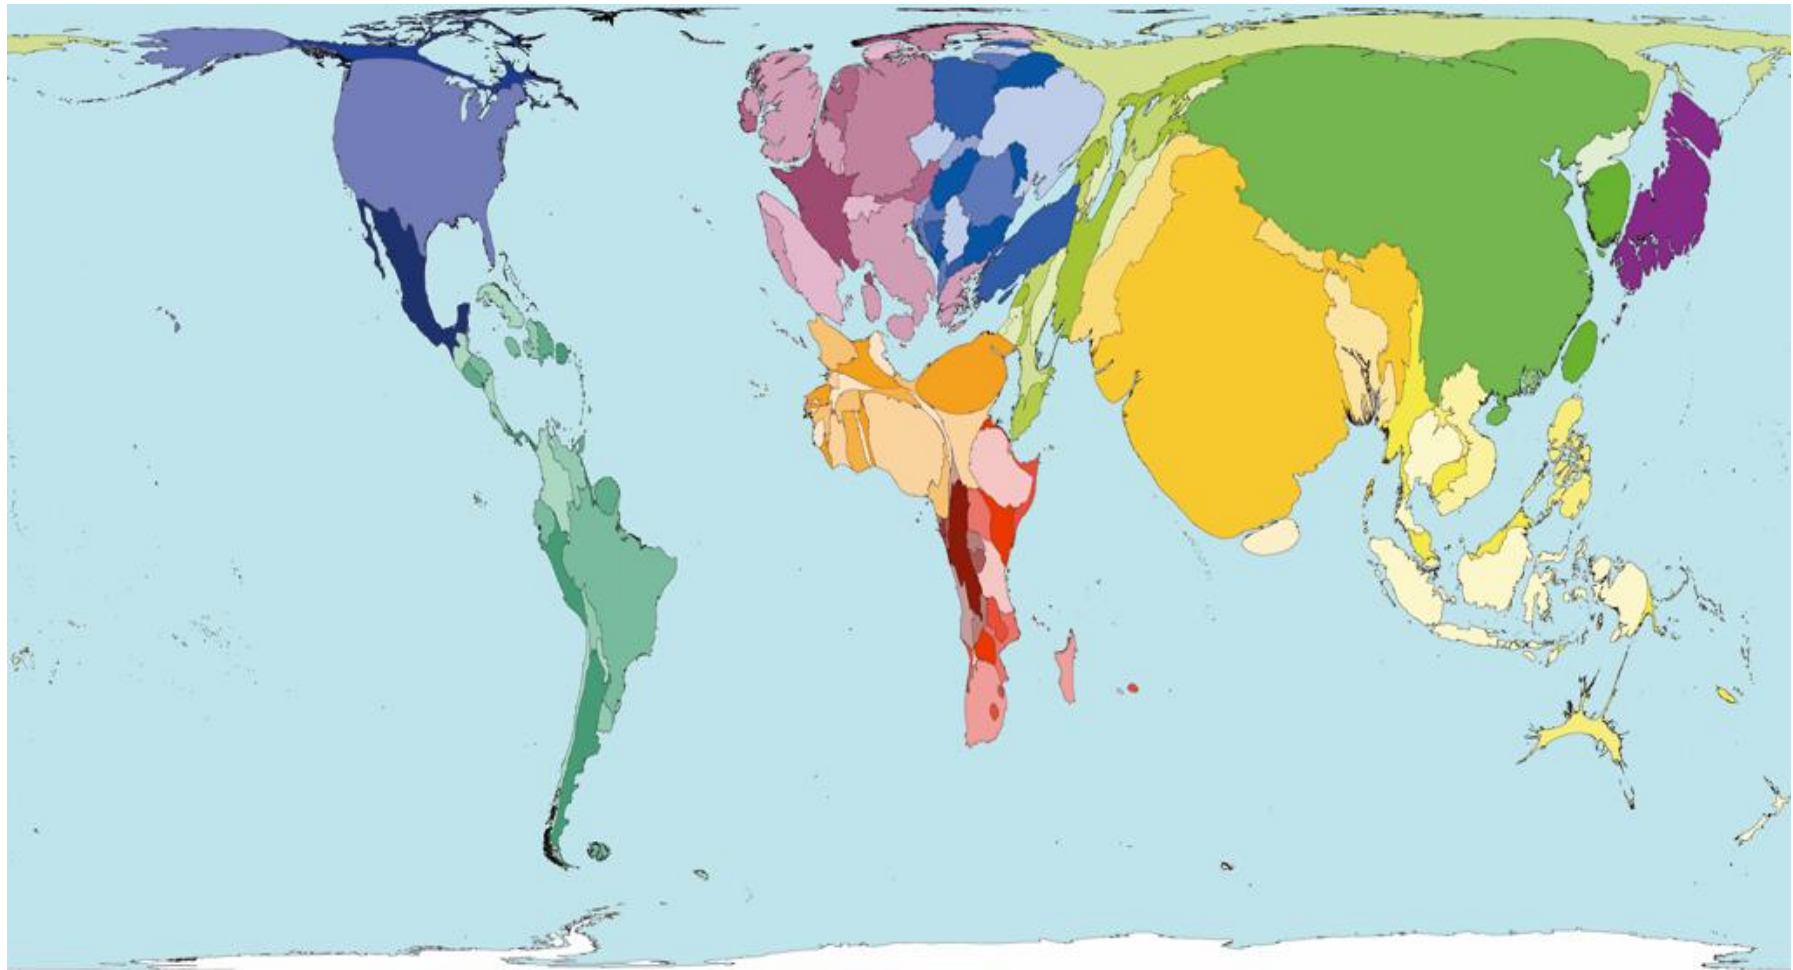

# *The distribution of HIV/AIDS*

Turning the World Upside Down  
The search for global health in the 21<sup>st</sup> century

# ***Non- communicable disease***

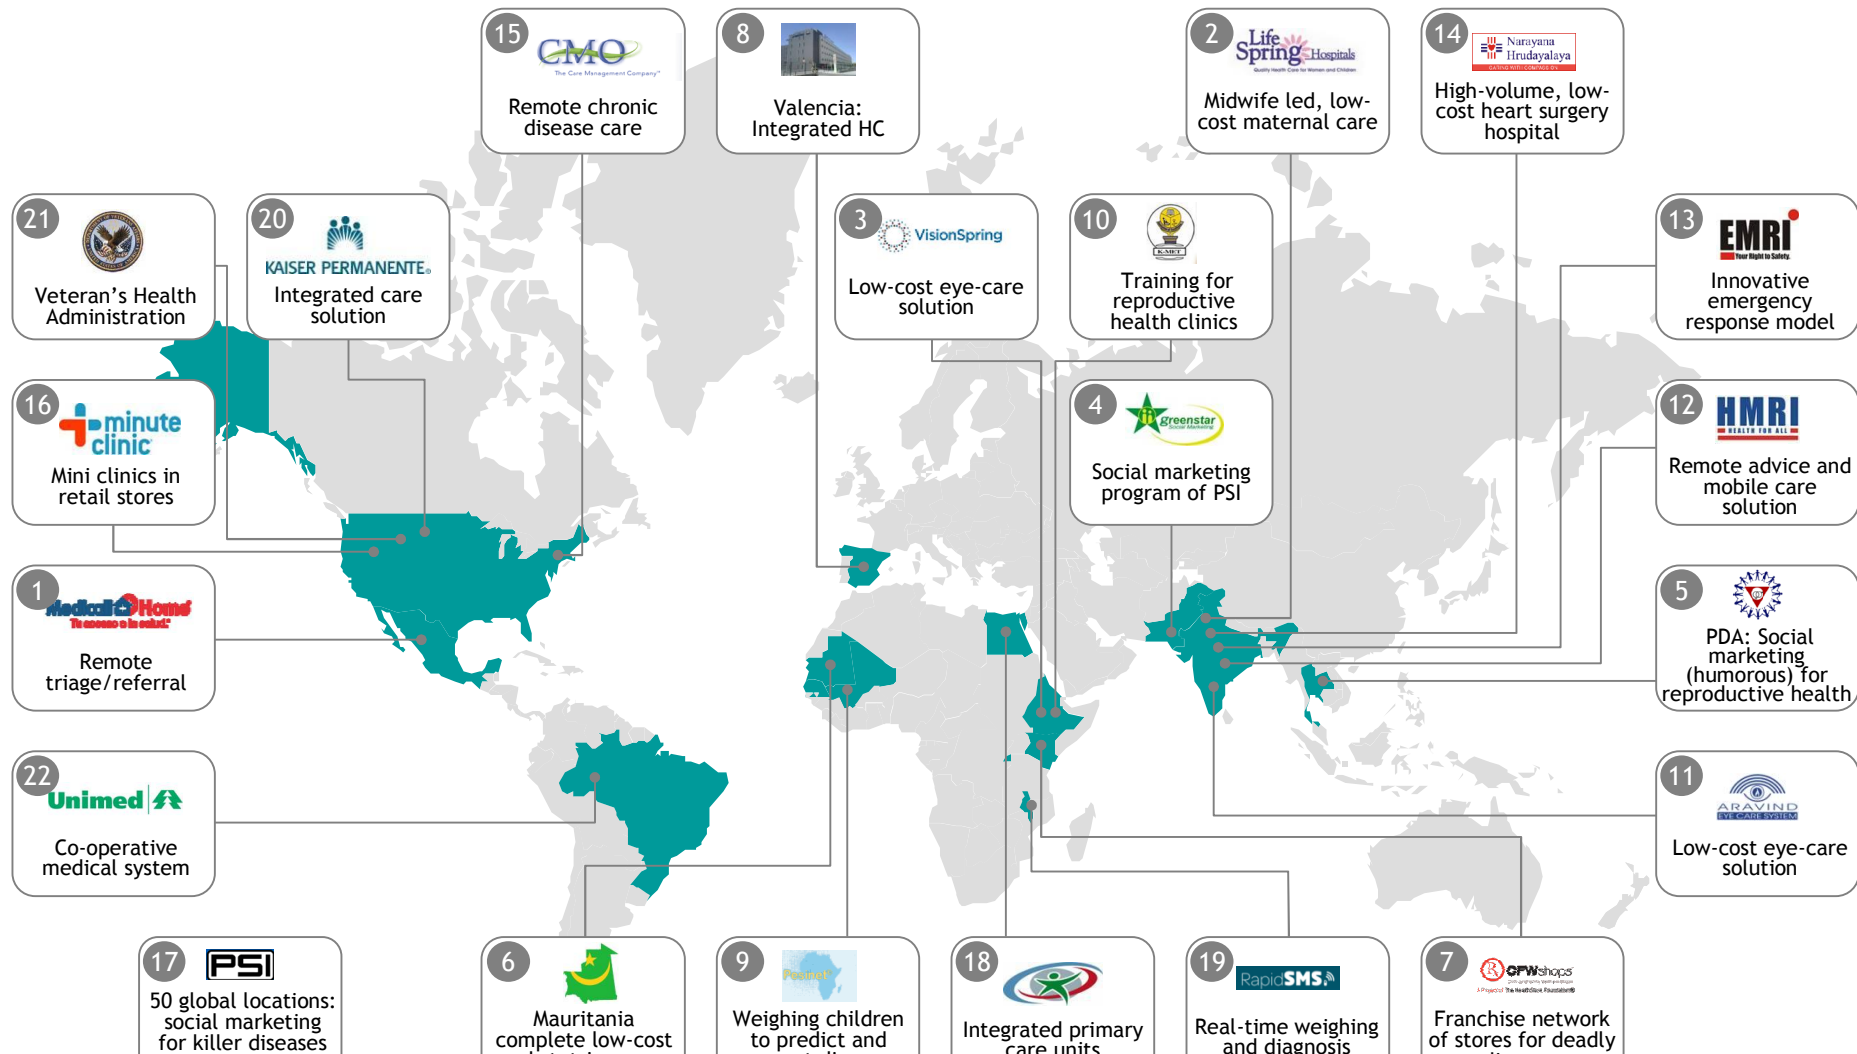

Turning the World Upside Down  
The search for global health in the 21<sup>st</sup> century

# *Innovation*

- HIV/AIDS
- Specific conditions
- Policy initiatives
- Product development
- Telemedicine
- Identified by GE , McKinseys

# Innovation in health care delivery is taking place around the world

Turning the World Upside Down  
The search for global health in the 21<sup>st</sup> century

# *An emerging tradition*

- Community, family and women
- Health, education and work
- Social enterprises
- Public health and clinical medicine
- Train for the job not the profession

# *Independence*

- Seeing world in terms of peoples' lives not our services
- “*Getting our lives back*”
- Living a life we have reason to value

# *Co-development and collaboration*

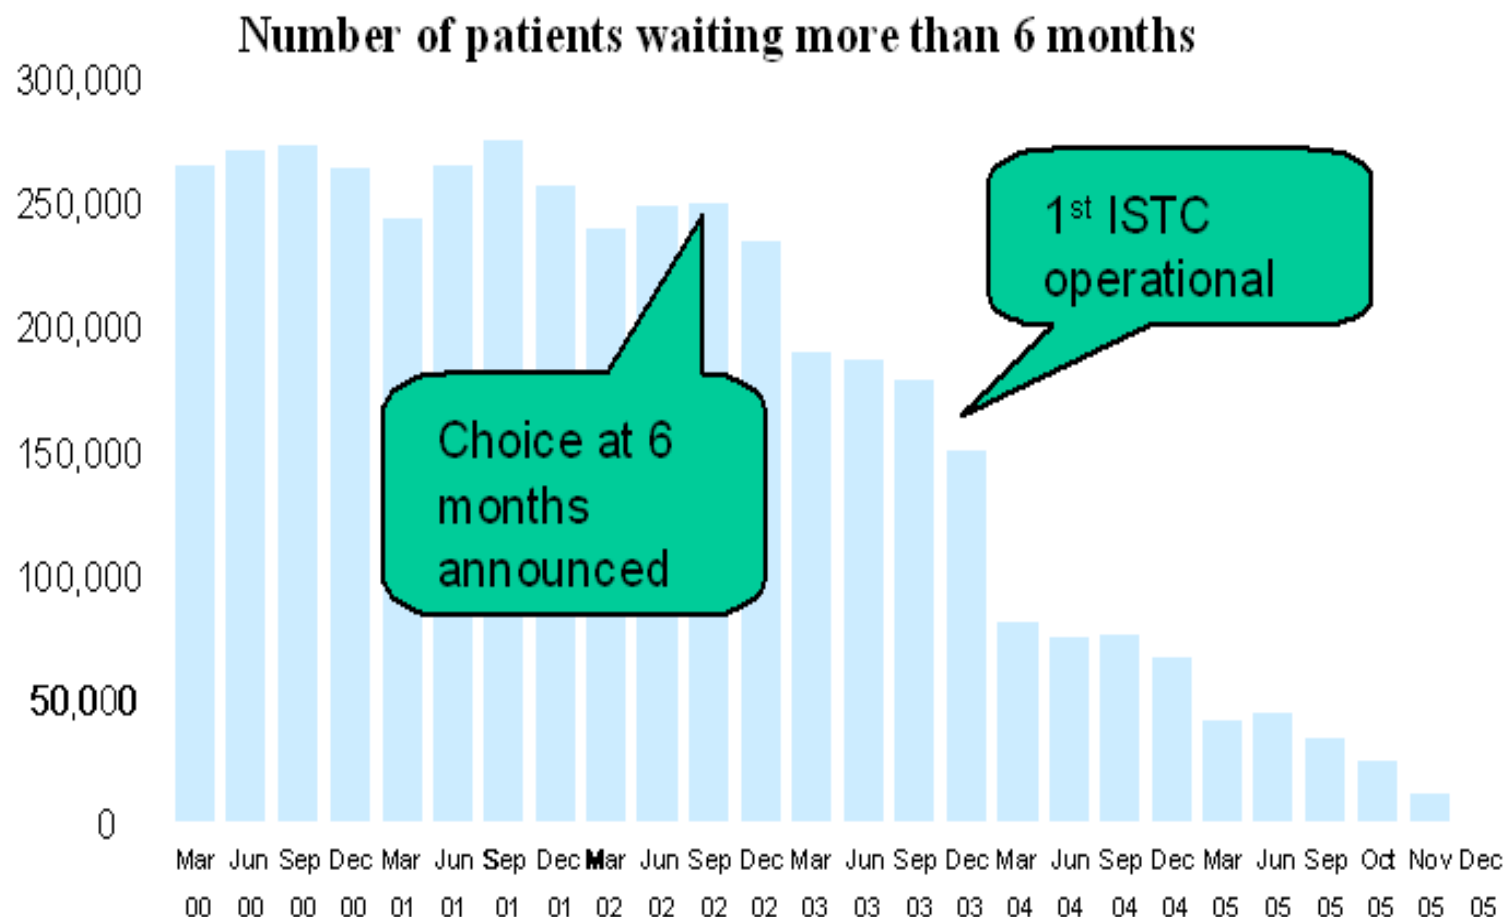

- Top down development - western experts
- Understanding Global Health
- Not “them and us” - we can all contribute

# *4 reforms in the NHS*

- Service redesign
- System redesign
- Job redesign
- Technology and science

# Waiting times down

# ***Benefits of co-development and collaboration***

- Refreshment and personal development
- Greater cultural awareness
- Learning specific skills and practices
- Challenging our long-held ideas
- Shaping the future together

# *Accelerating the change*

- Make it visible and coherent
- Health worker education and training
- Experience and exchange

Everyone has something to  
teach and everyone has  
something to learn
