

# AU Wing-kuk, Timmy

Dr Au obtained his *MB BS* with honours from the University of New South Wales, Australia in 1988. Upon completing his internship, he returned to Hong Kong in 1989 and began serving at the Accident & Emergency unit and later general surgery in Tuen Mun Hospital. Dr Au began his specialised training in cardiothoracic surgery in 1994 at the St. Vincent's hospital, Sydney, Australia and later the Grantham Hospital. In 1998, he was awarded the Hong Kong College of Cardiology Scholarship with which he spent a year as an overseas cardiothoracic surgical fellow at the Royal Infirmary, Glasgow, Scotland under the mentorship of Professor David Wheatley. He received the fellowship from the Hong Kong Academy of Medicine (Cardiothoracic Surgery) in 2000. Dr Au is also an Honorary Clinical Assistant Professor, Faculty of Medicine at the University of Hong Kong since 2002. He is now the chief of service and head of cardiothoracic surgical department at the Queen Mary Hospital.

Dr Au has special interest in heart and lung transplantation, heart failure surgery, valves repair surgery, complex aortic surgery and minimal invasive cardiac surgery. A meticulous surgeon, Dr Au is renowned for his stamina and his unrelenting pursuit in introducing new technology and skill to provide the best of care for his patients.
