

## UCH OR CQI Project

To reduce painful experience for patient with hip fracture by performing SA on transfer trolley before transferring to OT table for surgery in OR

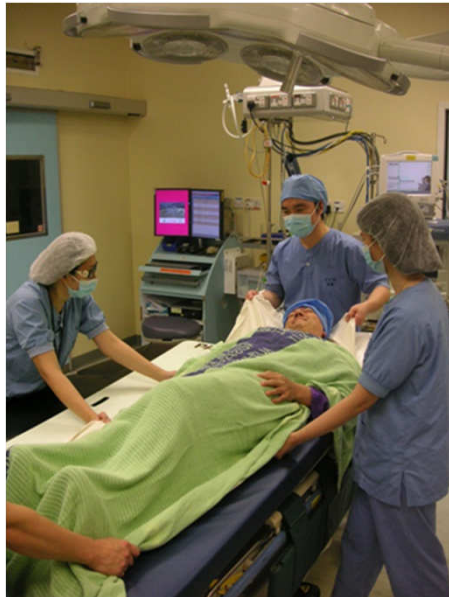

**Less Moving**

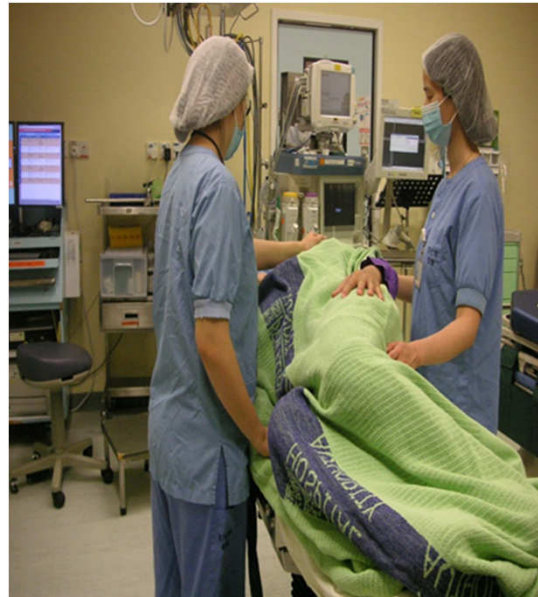

**Lesser Pain**

先半麻 後過床  
無痛搬運樂融融

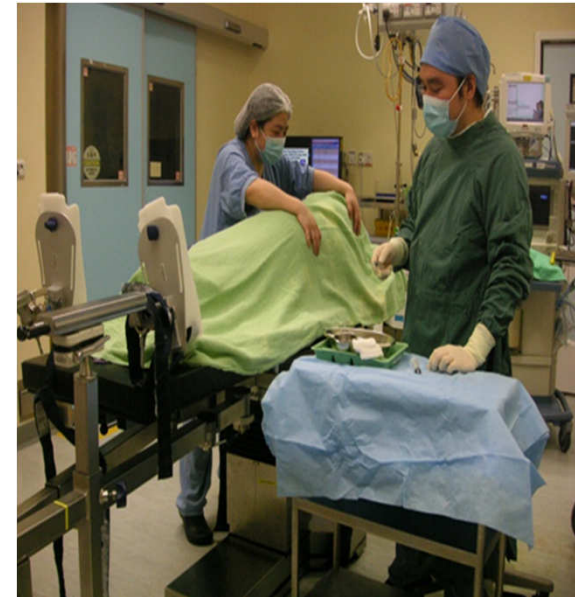

# Current Practice

1<sup>st</sup> painful transfer

2<sup>nd</sup> painful transfer

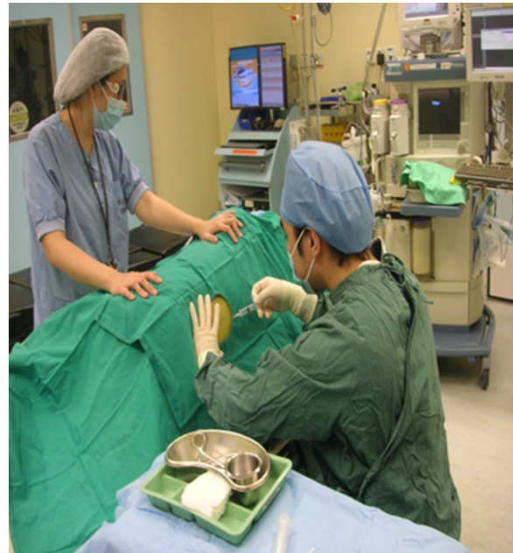

can't maintain the patient's position safety

# New workflow

1<sup>st</sup> painful transfer

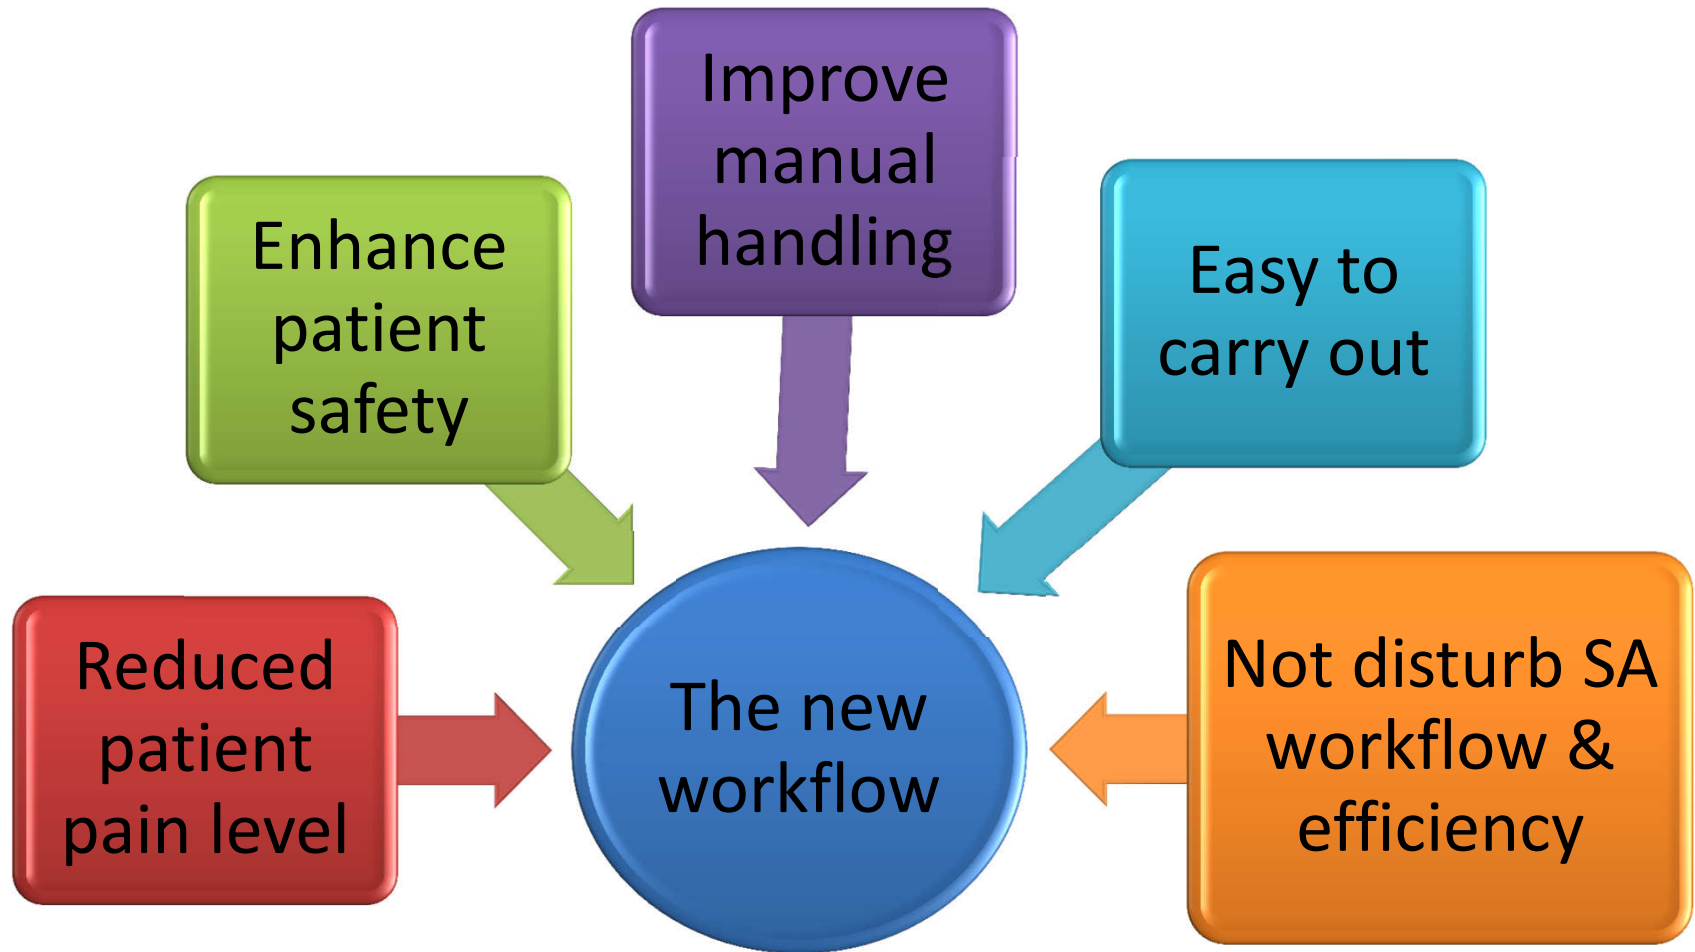

Received SA on transfer trolley & improve manual handling

Transfer to traction table with lesser pain

# Satisfaction level

*Thank  
you*
