Message from Chief Secretary for Administration

The Government of the Hong Kong Special Administrative Region

My warmest welcome to all participants of the Hong Kong Hospital Authority Convention 2017.

Over the past 25 years, the Hospital Authority Convention has gone from strength to strength and established itself as one of the premier events of the healthcare community not only locally but also globally. It brings together a diverse group of renowned healthcare experts from all over the world to share their valuable knowledge and experience on clinical advances.

More than 5,000 healthcare professionals, practitioners and academics will share in this year's Convention the latest breakthroughs and discoveries in a wide range of pertinent topics, including medical technologies, health service management and patient service delivery. I am sure that the Convention, by facilitating the exchange of knowledge and exploration of ideas as well as professional networking, will contribute significantly to the advancement of medicine both in Hong Kong and elsewhere.

I wish the Hospital Authority Convention 2017 a great success and all participants a most rewarding and enriching experience.

A handwritten signature in black ink, appearing to read 'Matthew Cheung', with a long horizontal line extending to the right.

The Honourable Matthew CHEUNG Kin-chung

Chief Secretary for Administration

The Government of the Hong Kong Special Administrative Region

Message from Secretary for Food and Health

The Government of the Hong Kong Special Administrative Region

I am delighted to offer the Hospital Authority my warmest congratulations.

Healthcare is all about people. As the major provider of public healthcare services in Hong Kong, the Hospital Authority is instrumental in the protection and promotion of the well-being of people in our city and has always been an indispensable partner to the Government in the implementation of health policy initiatives. As we strive to uphold quality healthcare services, we are affirmative in the unweaving support in terms of finances and policy direction to the Hospital Authority in the past, present and future.

According to surveys released by various institutions, our public healthcare service is valuable as the system serves as an essential safety net for the population and is rated as the most efficient in the world. I believe this could not be achieved without the technological development which significantly advances our ability to successfully diagnose and treat different diseases. Most importantly, we should not underestimate the utmost importance of human touch from a group of committed and dedicated healthcare professionals, researchers and supporting staff from the Hospital Authority. I would like to express my sincere thanks to their efforts in serving the community with selfless devotion.

Over two decades, this Conference offers an unparalleled opportunity for clinicians of various specialties from around the world to exchange information, ideas and best practices in diagnosis, treatment and broader care of patients. I am certain that all participants will benefit from the wisdom and experience of distinguished local and international speakers this year.

I wish the Hospital Authority Convention 2017 every success and all participants an inspirational, eye-opening and rewarding experience.

Dr KO Wing-man

Secretary for Food and Health

Food and Health Bureau

The Government of the Hong Kong Special Administrative Region

Message from Chairman

Hospital Authority, Hong Kong

Welcome to the Hospital Authority Convention 2017!

This Convention has become a signature event in the healthcare arena of Hong Kong and worldwide since its inception in 1993. It serves as a good platform for healthcare professionals locally and overseas to share insights, exchange experiences, as well as build friendship and networks.

Innovating for better care is the theme of our strategic directions for the next five years. In the organisation's strategic plan for 2017-2022, HA has mapped out various strategies to improve service quality, optimise demand management, attract and retain staff, enhance training and development and enhance financial sustainability. It is through this Convention that we connect with healthcare professionals from all over the world to strengthen our knowledge and skills which will further contribute to the realisation of our strategic plan.

I wish to take this opportunity to thank all the speakers in sharing their professional knowledge and unique experience in the Convention. They inspire and open our horizons; the more we exchange, the more we learn and the more we can deliver better patient care to the people in need.

My sincere gratitude also goes to Mr Wang Hesheng, Vice Minister of the National Health and Family Planning Commission of the People's Republic of China; the Honourable Matthew Cheung Kin-chung, Chief Secretary for Administration of the Government of the Hong Kong Special Administrative Region; and Dr Ko Wing-man, Secretary for Food and Health of the Government of the Hong Kong Special Administrative Region for being the officiating guests of this memorable occasion.

I wish all of you an inspiring and rewarding experience and all overseas visitors an enjoyable stay in Hong Kong.

A handwritten signature in black ink, appearing to read 'J Leong', followed by a small flourish.

Professor John LEONG Chi-yan
Chairman
Hospital Authority, Hong Kong

Message from Chief Executive

Hospital Authority, Hong Kong

It is my honour to welcome you all to the Hospital Authority Convention 2017.

This conference is a bridging link for medical professionals from around the world to share experiences and ideas on how we can collectively move forward in the delivery of quality public healthcare services.

With the advent of technology, information technology is playing an increasingly important role in all aspects of our lives – healthcare is no exception. In a digital age, the effective application of technology is critical in supporting HA in achieving its mission and strategic objectives in delivering the highest possible standards of medical diagnosis, treatment and care for the people of Hong Kong. In the past years, we have made tremendous endeavours in developing tech-based solutions to meet various patient needs and enhance the quality of service. We look forward to gaining insightful perspectives particularly in this aspect in the Convention.

With our anchor focusing on HA's core values of people-centred care, professional service, committed staff and teamwork, the Convention will have over 150 distinguished overseas and local speakers sharing with us their expertise and insights in more than 60 sessions. Special sessions will render discussion opportunities on topics such as stroke management, stimulation clinical training and assessment, and healthcare in mainland China. Masterclasses will include clinical topics such as cosmetic drugs, diabetic management, renal medicine, and neurometabolic disorders.

Organising this flagship healthcare event is an arduous task. I would like to express my sincere thanks to the Organising Committee, Scientific Programme Committee, Convention Management Committee and all colleagues of HA from various levels for their selfless contribution. My heartfelt appreciation also goes to the Convention Secretariat for its hard work.

Looking at the impressive list of speakers, I am sure that all delegates of the Convention will find the event informative, inspiring and enlightening. On this memorable occasion, I hope everyone will enjoy it and look forward to exchanging ideas constructively with one another.

A handwritten signature in black ink, consisting of a stylized 'P' and 'Y' followed by 'LEUNG'.

Dr PY LEUNG
Chief Executive
Hospital Authority, Hong Kong

Choi NYM	Be a Mammographer Who Interprets Mammograms	Wednesday, 17 May 2017	C3.2
Choi S	Evolution of Korea's Pharmaceutical Service Model	Wednesday, 17 May 2017	PS11.1
Choi WK	Plastic Surgery on Congenital Diseases: From Cleft Lip and Palate to Facial Clefts	Tuesday, 16 May 2017	M6.2
Choi YF	Teaching Crew Resource Management with Clinical Simulation: We Learned More than We Taught	Tuesday, 16 May 2017	SS2.3
Chong KW	Pressure Ulcer Prevention and Management: Evaluation of a Home-based Education Programme for Caregivers of Elderly: A Pilot Study	Wednesday, 17 May 2017	F8.1
Chong Q	The Six Senses – Communications in the Digital Era	Wednesday, 17 May 2017	S11.2
Chow KM	Human Touch in Healthcare Delivery	Wednesday, 17 May 2017	M12.2
Chow SLE	Rehabilitation for a Million – Hospital as a Proactive Interface to Community Rehabilitation	Tuesday, 16 May 2017	S3.2
Chow YY	Strategies in Fragility Distal Radius Fracture	Tuesday, 16 May 2017	M3.1
Chu S	Enhancing Psychosocial Care for Patients with Palliative Care Needs in the Acute Medical Wards	Wednesday, 17 May 2017	M15.2
Chui AKF	A Pilot Project: Implementation of Duplication Checking for Ultrasound Examinations in Princess Margaret Hospital	Tuesday, 16 May 2017	F3.3
Chui WST	Upholding Person-centred Care: Two Years' Staff Engagement Experience in Shatin Hospital and Bradbury Hospice	Tuesday, 16 May 2017	F2.5
Chun WYE	Advancement in Rehabilitating Spinal Movement Control with 3D Motion Analysis	Wednesday, 17 May 2017	PS8.1
Chung J	Embryo and Oocyte Freezing to Preserve Fertility	Tuesday, 16 May 2017	SS3.2
Chung HS	Use of Simulation in Disaster Medicine Training	Tuesday, 16 May 2017	SS2.1
Chung HS	Application of Simulation to Improve Clinical Efficiency – Systems Integration	Wednesday, 17 May 2017	S5.2
Cripps M	NHS RightCare – Delivering Optimal Healthcare in England	Tuesday, 16 May 2017	P3.1
Cripps M	NHS Atlases of Variation – the Power of Variation	Wednesday, 17 May 2017	S9.1
Fan ESH	Service Accessibility Monitoring of Cancers in Hospital Authority by Data Mining Approach	Tuesday, 16 May 2017	F1.3
Fan S	Pilot HPV Vaccination Programme to the Underprivileged Girls in Hong Kong	Wednesday, 17 May 2017	SS5.2
Fang LY	Smart Healthcare Innovations in Beijing	Tuesday, 16 May 2017	SS1.2
Fung CW	Neurometabolic Diseases: Current Scenario and Hope	Tuesday, 16 May 2017	M4.1
Fung RC	Quality Palliative Care Services – the Growing Demand	Tuesday, 16 May 2017	P4.2
Fung RC	End-of-life Care in Singapore	Wednesday, 17 May 2017	S10.1
Greenfield D	Implementing Patient-centred Care: An Opportunity to Stop, Reflect and Review, and Move Forward Building upon on Your Strengths	Tuesday, 16 May 2017	P1.2
Greenfield D	Health Service Accreditation Programmes: Their Role, Contribution and Associated Challenges to Driving Quality, Safety and Organisational Improvement	Wednesday, 17 May 2017	S12.1
Gurung S	Ethnic Minorities' Health in Hong Kong within its Cultural Diversity	Wednesday, 17 May 2017	S13.2
Harris I	Surgery as Placebo	Tuesday, 16 May 2017	P4.1
Harris I	To Do or Not To Do: Determining Effectiveness and Appropriateness of Surgery	Wednesday, 17 May 2017	S8.1
Hau WL	The Pilot Study of Newborn Screening for Inborn Errors of Metabolism: a Joint Programme of the Department of Health and Hospital Authority	Wednesday, 17 May 2017	F5.2
Ho A	Enhance Physical Activity Level of Hospital Staff: Peer Influence and Convenience on Participation as Enablers	Wednesday, 17 May 2017	F7.6
Ho J	Is Advanced Lung Cancer Becoming a Chronic Disease?	Wednesday, 17 May 2017	M13.1
Ho W	Mechanical Thrombectomy in Acute Ischaemic Stroke – Hong Kong and Shenzhen Experience	Wednesday, 17 May 2017	SS4.3
Hui E	Application of Tele-medicine in Rehabilitation and Chronic Disease Management	Tuesday, 16 May 2017	S2.3
