

About Us

Background

Hospital Authority Eye Bank is responsible for coordinating eye tissue donation in Hong Kong, with a mission of providing quality eye tissues for patients to restore their sight and working with corneal surgeons to foster advances in the management of corneal diseases.

Scope of Service

1. To provide 24 hours on-call eye donation service covering whole of Hong Kong (from both public and private institutions)
2. To encourage eye tissue donation and provide grief counseling for the deceased family
3. To recover, process and distribute ocular tissue for transplantation
4. To conduct educational and promotional activities to increase eye donation awareness
5. To promote education, training and research in the management of corneal diseases
