2:45 pm to 4:45 pm

### **Points-to-note**

In order to maintain public health, the following infection control measures are being implemented :

- No visit is allowed for quarantined areas and wards.
- A maximum of 2 visitors for a patient is allowed to enter the ward at a time.
- Pregnant visitors shall avoid visiting patients.
- Children under 12 years of age are usually not allowed to enter ward areas, unless special permission is granted for special reason/situation e.g. patient to be visited is the parent of the children.
- Visitors and public members are advised to wash their hands frequently and as appropriate. They should also consider wearing masks and the used masks should be disposed of properly.

Visitors and public members are also invited to take note of the latest notices posted at individual wards for the updated visiting arrangement. Thank you for your attention and cooperation.
