

致沙田醫院4B病房各醫護人員：

感謝各位悉心照顧我爸爸 ，我記得我剛從外地回來探望爸爸時，他患有肺炎，需要吸入氧氣，情況嚴重！
經李醫生及其團隊治療後，慢慢回覆如常，慢慢可以不用吸氧氣，開始進食，由要別人餵食到可以自己進食。
感謝前線護士及姐姐耐心照顧爸爸，你們的每一句說話都令家屬感到4B醫護人員人性化的照料。特別感謝護士長（阿Sir）及馮姑娘、石姑娘等細心因應家屬疑慮，有時我們太緊張可能說話不懂技巧，希請原諒！
感謝物理治療師（陳先生及另一位女物理治療師，職業治療師葉姑娘）每日給爸爸做運動，令他重拾信心！感謝院叔每日都跟爸爸閒談，還有很多很多姐姐幽默照顧，恕不能盡錄各位姓名，無言感激！
回港三星期後，我要回到外地了，未來爸爸還有很多肺病治療，有各位照顧令我們感到希望！

 家屬 4B ^{mom}
Hugo =)

尊敬的沙田醫院 4A 病房全體醫護人員及職工：

經歷了威爾斯醫院 ICU、內科病房及其他專科醫護與醫療專職人士的診治，我的病情逐漸穩定，在 5 月 11 日我轉到沙田醫院 4A 病房進行復康治療。

在 4A 病房內，經主責的內科醫護人員治療，並適切轉介不同專科的醫生及治療師，包括精神科、言語治療師、營養師、物理治療師、職業治療師等跟進診治，我逐漸康復。由只可以進食糊餐，進而可進食切絲餐；液體飲品加入凝固粉可以由 2 匙減至 1 匙；藥丸由必須壓碎吞服至可以整粒吞服；由不准落床至有人攙扶下慢慢步行，再而可以持拐杖步行。

回想在 4A 病房的日子，是我畢生難忘的體驗。日常起居生活，初時要完全倚賴他人照顧，包括進食、大小二便、洗澡等，到 5 月 23 日出院時，已慢慢回復到可自我照顧的能力。除了家人的支持，更要感謝的是各位醫護及職工以任勞任怨的專業精神照顧我。你們的辛勞深深感動了我及我的家人。在醫護人手極度不足的情況下，你們仍保持入職醫護界的初心，抱持敬業樂業的專業情操照顧病患，令我和我的家人由衷感恩。

在此，請容許我及我的家人再次向你們說聲「感謝」！

THANK YOU VERY MUCH

4A

敬上

李永興

Dear Medical / Nursing Team of Ward 8D,

We are writing to express our sincere gratitude to the entire medical / nursing team at Ward 8D of Sha Tin Hospital. Our dad ([REDACTED]) was a patient at the hospital for a prolonged period of time (from May 2023 to Mar 2024). During his stay, the staff of Ward 8D (doctors, especially Dr. Cheng, Dr. Lam and Dr. Mo, case nurses and nursing assistants) had gone above and beyond to provide him with compassionate, high-quality medical care. With the level of care, our dad was able to overcome medical crises along the way and lived the last months of his life with dignity and a higher quality of life. Words are not enough to express our family's gratitude and appreciation. The medical social worker Ms. Mak also offered her help in identifying a suitable nursing home and financial assistance to our dad which minimized our burden in collecting the relevant information.

Once again, thank you for everything you did for our dad. We are very grateful for all your expertise and care. We wish you all the best in the days to come!

Yours sincerely,

(Patient Relative : [REDACTED])
